

Personal profile global studio

Hi everyone!

My name is **Cristiana Cacace**, I am 23 years old and I live in Naples.

I am of the sign of the fishes, ascending balance (I must say that I believe in astrology, but more in the personality traits than in the daily horoscope).

In fact the description of these signs reflects me very much, I am a very introverted person, and reflective, ***"the eternal indecisive"*** so my friends say. *"There are two double marks in the bottom, no?"*

I consider myself a very creative person, I love everything that is art, for this **dance** studio since I was 3 years old and I continue to do it today, especially I do classical, contemporary, modern and even aerial dance.

Also in the work I chose to take an artistic path, study communication, and one day I would like to work in advertising especially in the fashion world.

One of my greatest passions is **photography**, so I made this my job, at the moment I am a social media manager, I manage and create content for various pages especially on instagram and tiktok.

I love to travel, my dream is to be able to say that I have visited every part of the world.

I am a very sunny person and I try to always see the beauty in things, in fact I have an instagram page called "**allepiccolegrandicose**" on which I post the small gestures, the little things in life that are actually great things (by the way follow me on IG!!)

Maybe that's why my mom calls me "**Alice in wonderland**", because I'm always with my head in the clouds!

Thank you,

Cristiana Cacace
