

Hello everyone!

My name is **Ida Testa**, I am 24 years old, and I have a degree in Communication Studies from Suor Orsola Benincasa University in Naples. I live and study in Naples, and I love my city.

I'm a simple person, and in my free time, I enjoy spending time with my friends and family. I like doing physical activities, such as taking long walks and going to the gym. Staying active helps me feel good and energized. It's also a great way to clear my mind and stay healthy. I enjoy listening to good music, going to parties and concerts, and eating delicious food in the company of friends.

I also love traveling and discovering new places, especially where there's the sea, which is one of my absolute favorite places because I love feeling free and being in the sun. Also, every time I travel and visit a new place with my friends, I like to get a new tattoo as a way to remember that

special experience. It has become a personal tradition for me. Each tattoo represents a unique memory from our adventures together.

I've always been a bit vain, and this has led me to develop a passion for fashion. Fashion allows me to express myself and feel confident in my own style!
