

Hallo I am Martina Avitabile, I have 22 years and I am Neapolitan, I have a degree in psychology and now I'll tell you something about myself.

My family is made up of 3 people: my mum, my dad and I, I love sharing time with them!

In this photo there is also my cousin Lorenza, who is like a sister to me!

My mom and I share the same passion for fashion, she is a designer and I like to create with her paper patterns. My father works as a lawyer and he has a passion for photography

My boyfriend is called Andrea he has 24 years and he studies pharmacy at the university and is also a fantastic DJ! We have a lot of fun together, we like to go out to dinner, hang out with our friends and listen to good music.

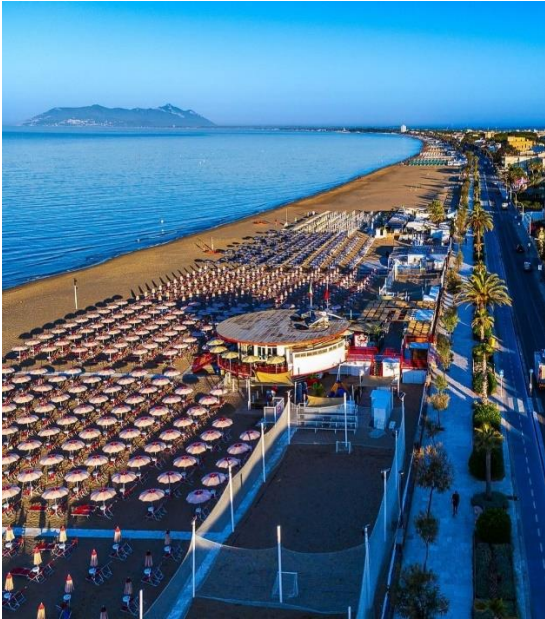

I have a fantastic group of friends, we all share the passion for art, for example there is who composes music, who sings, who plays. I like having fun with them!

I like to take care of myself, my family, my friends, and my little cat Diego but when I'm at home, I love to watch police movies and in fact I would like to take the path of criminology!

I love summer, I like the sea, relaxing on beautiful beaches, I like to drink at sunset, I consider myself a person determined, extroverted and helpful.

And this is me!
