ILARIA

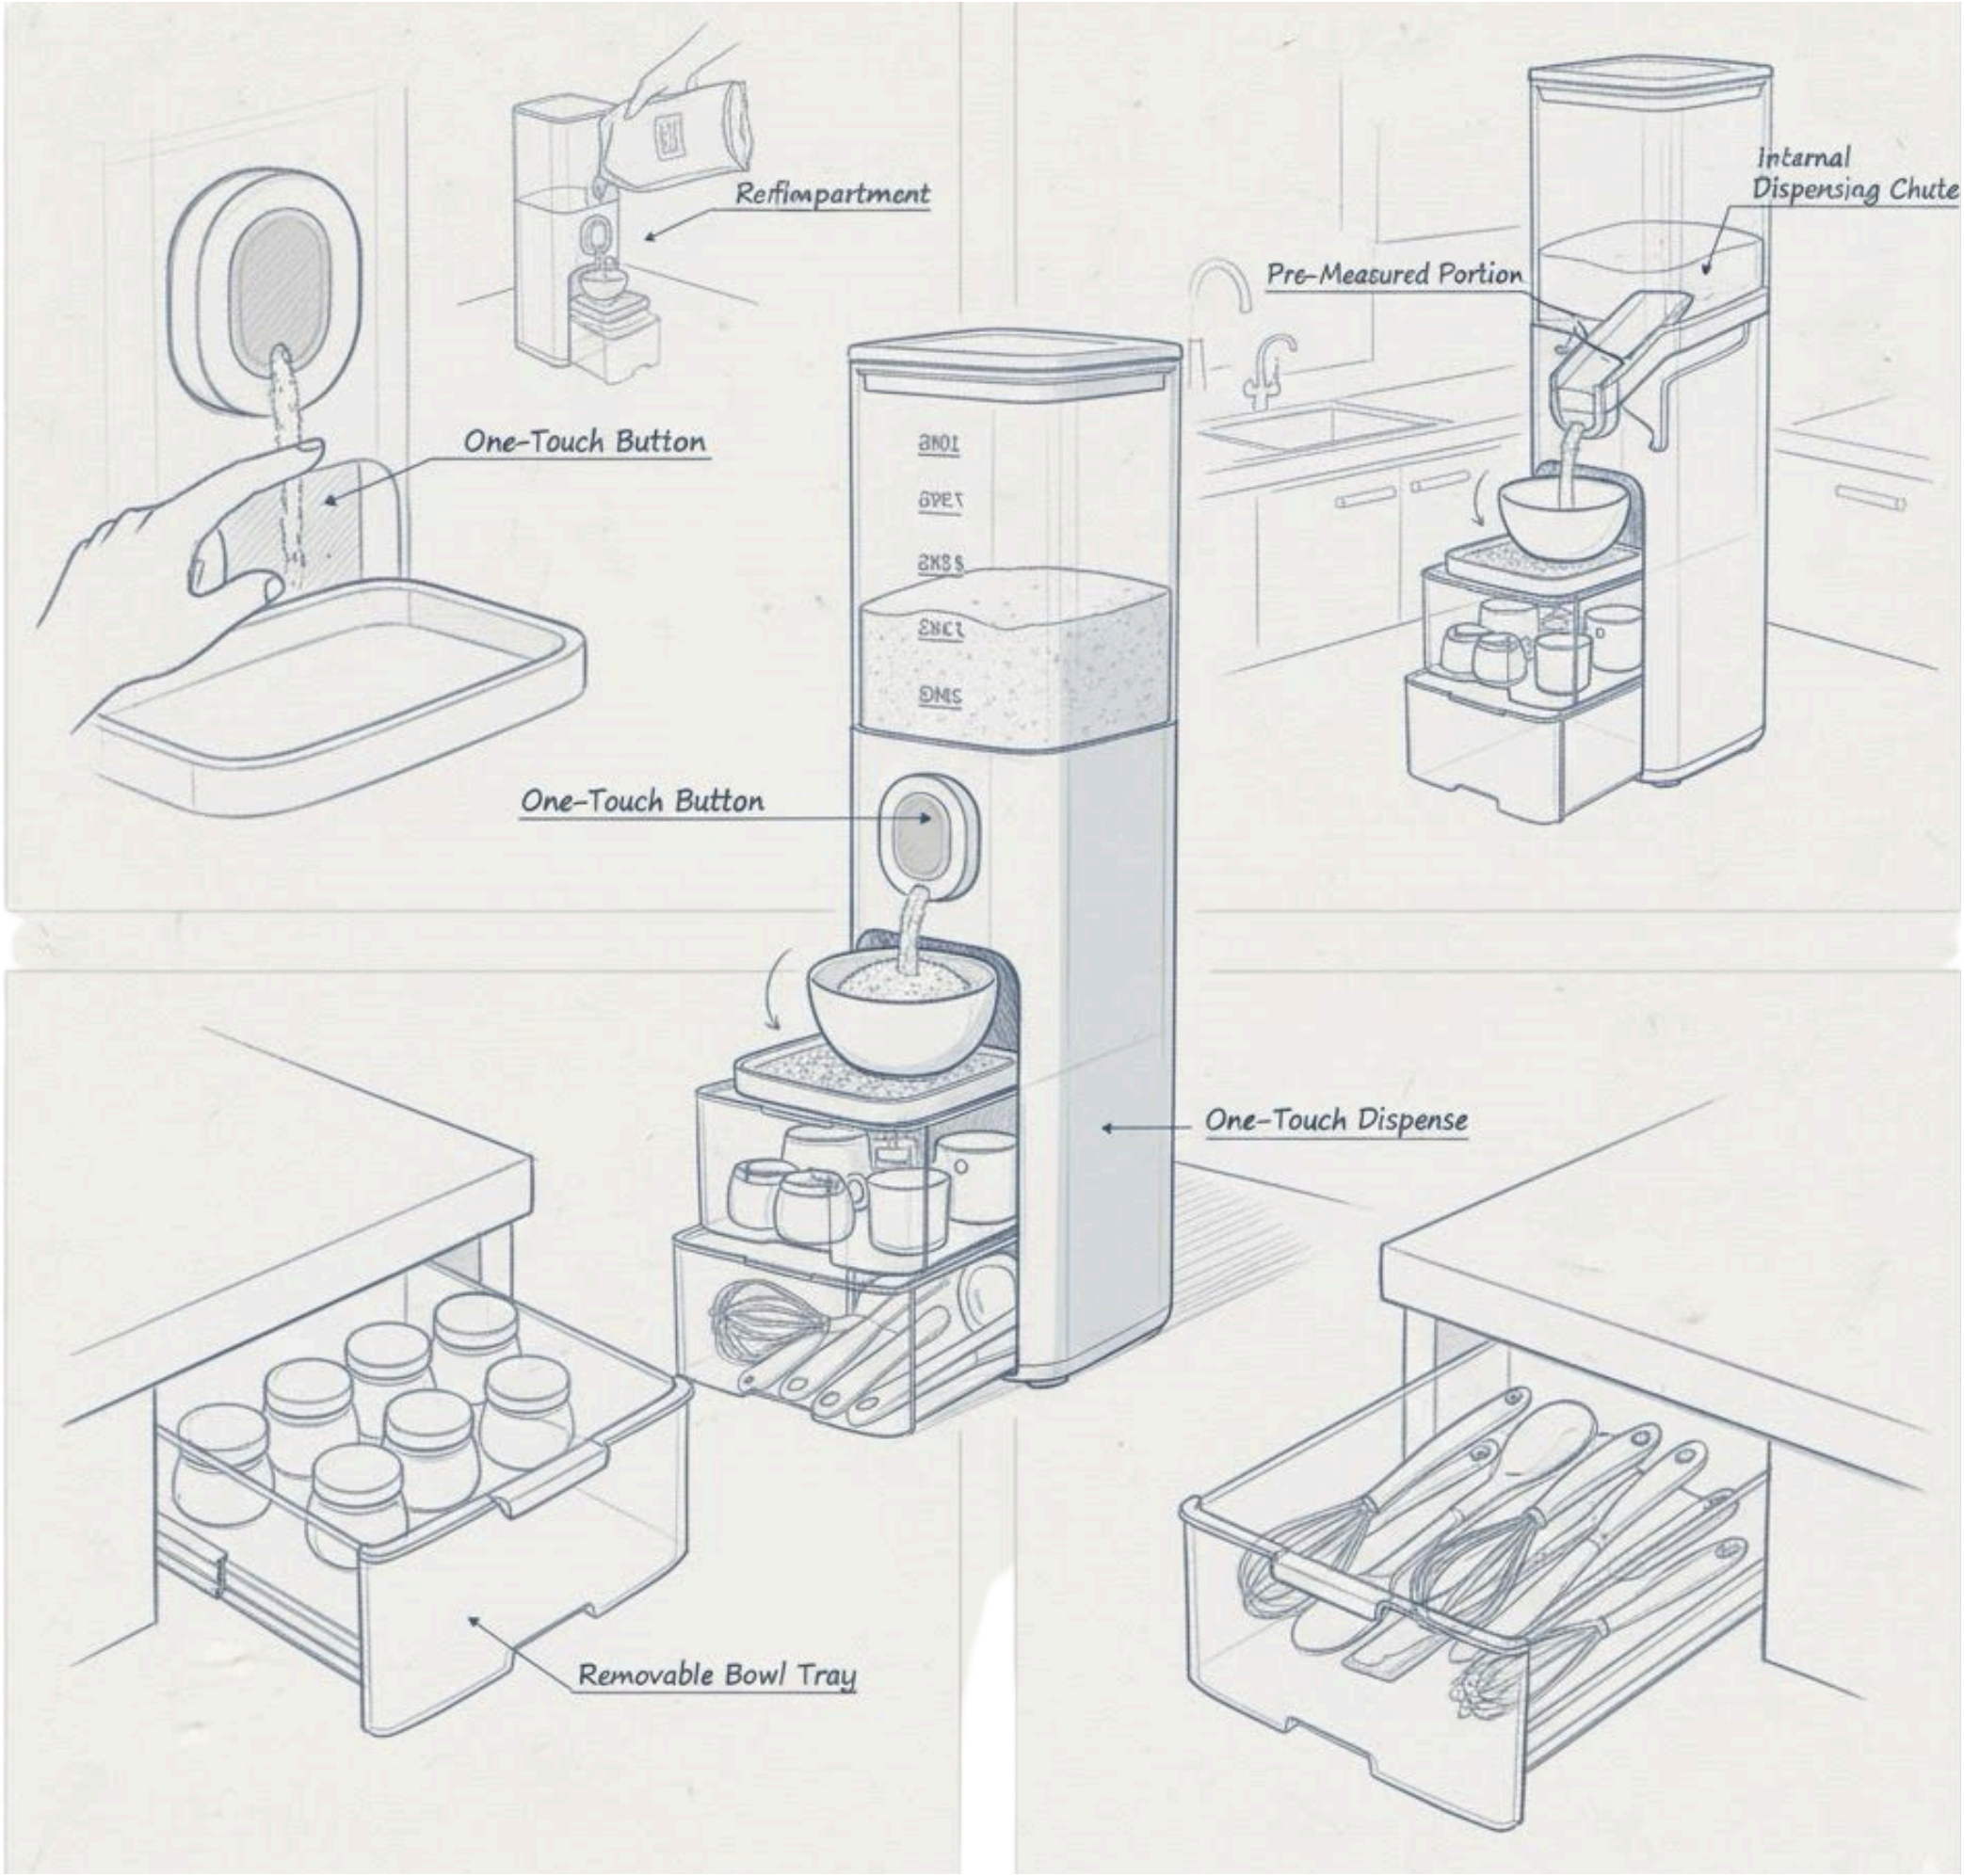

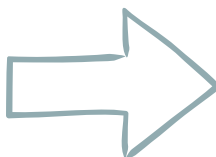

PRODUCT DESIGN

Tower design: It features a sleek, vertical shape, optimized to take up minimal counter space in the kitchen.

STRUCTURE

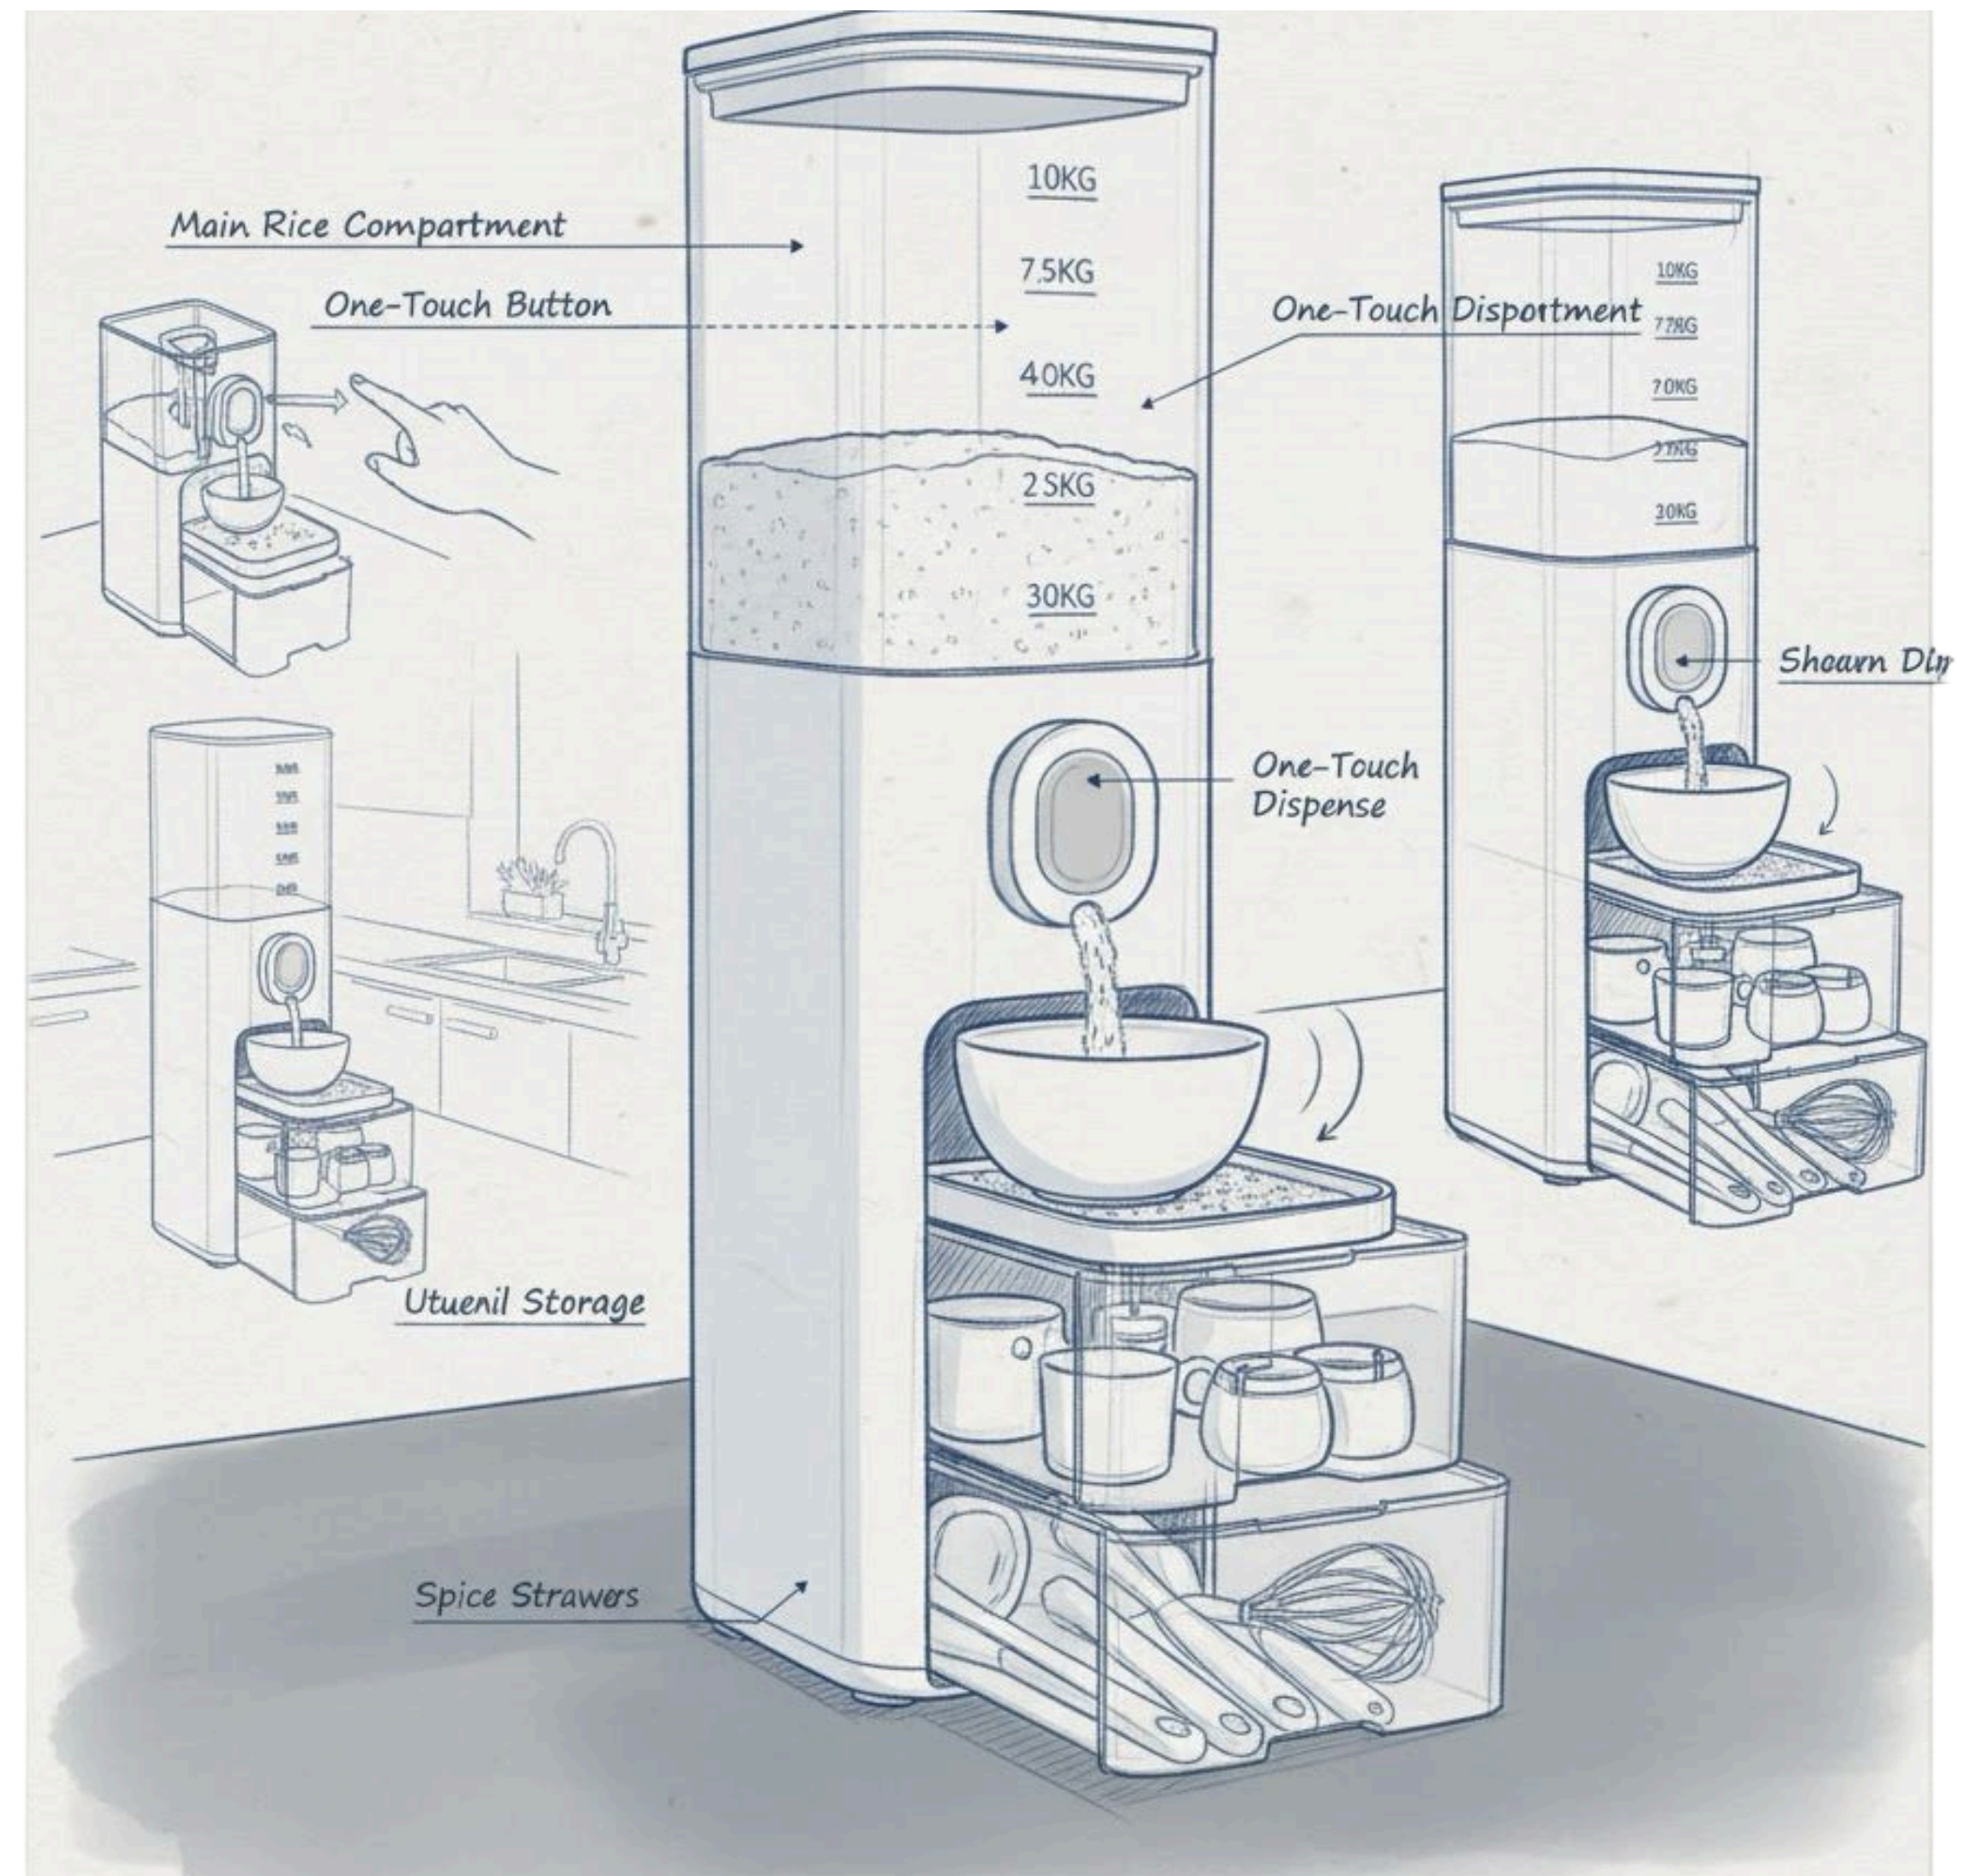

FUNCTIONS

Dispensing system:

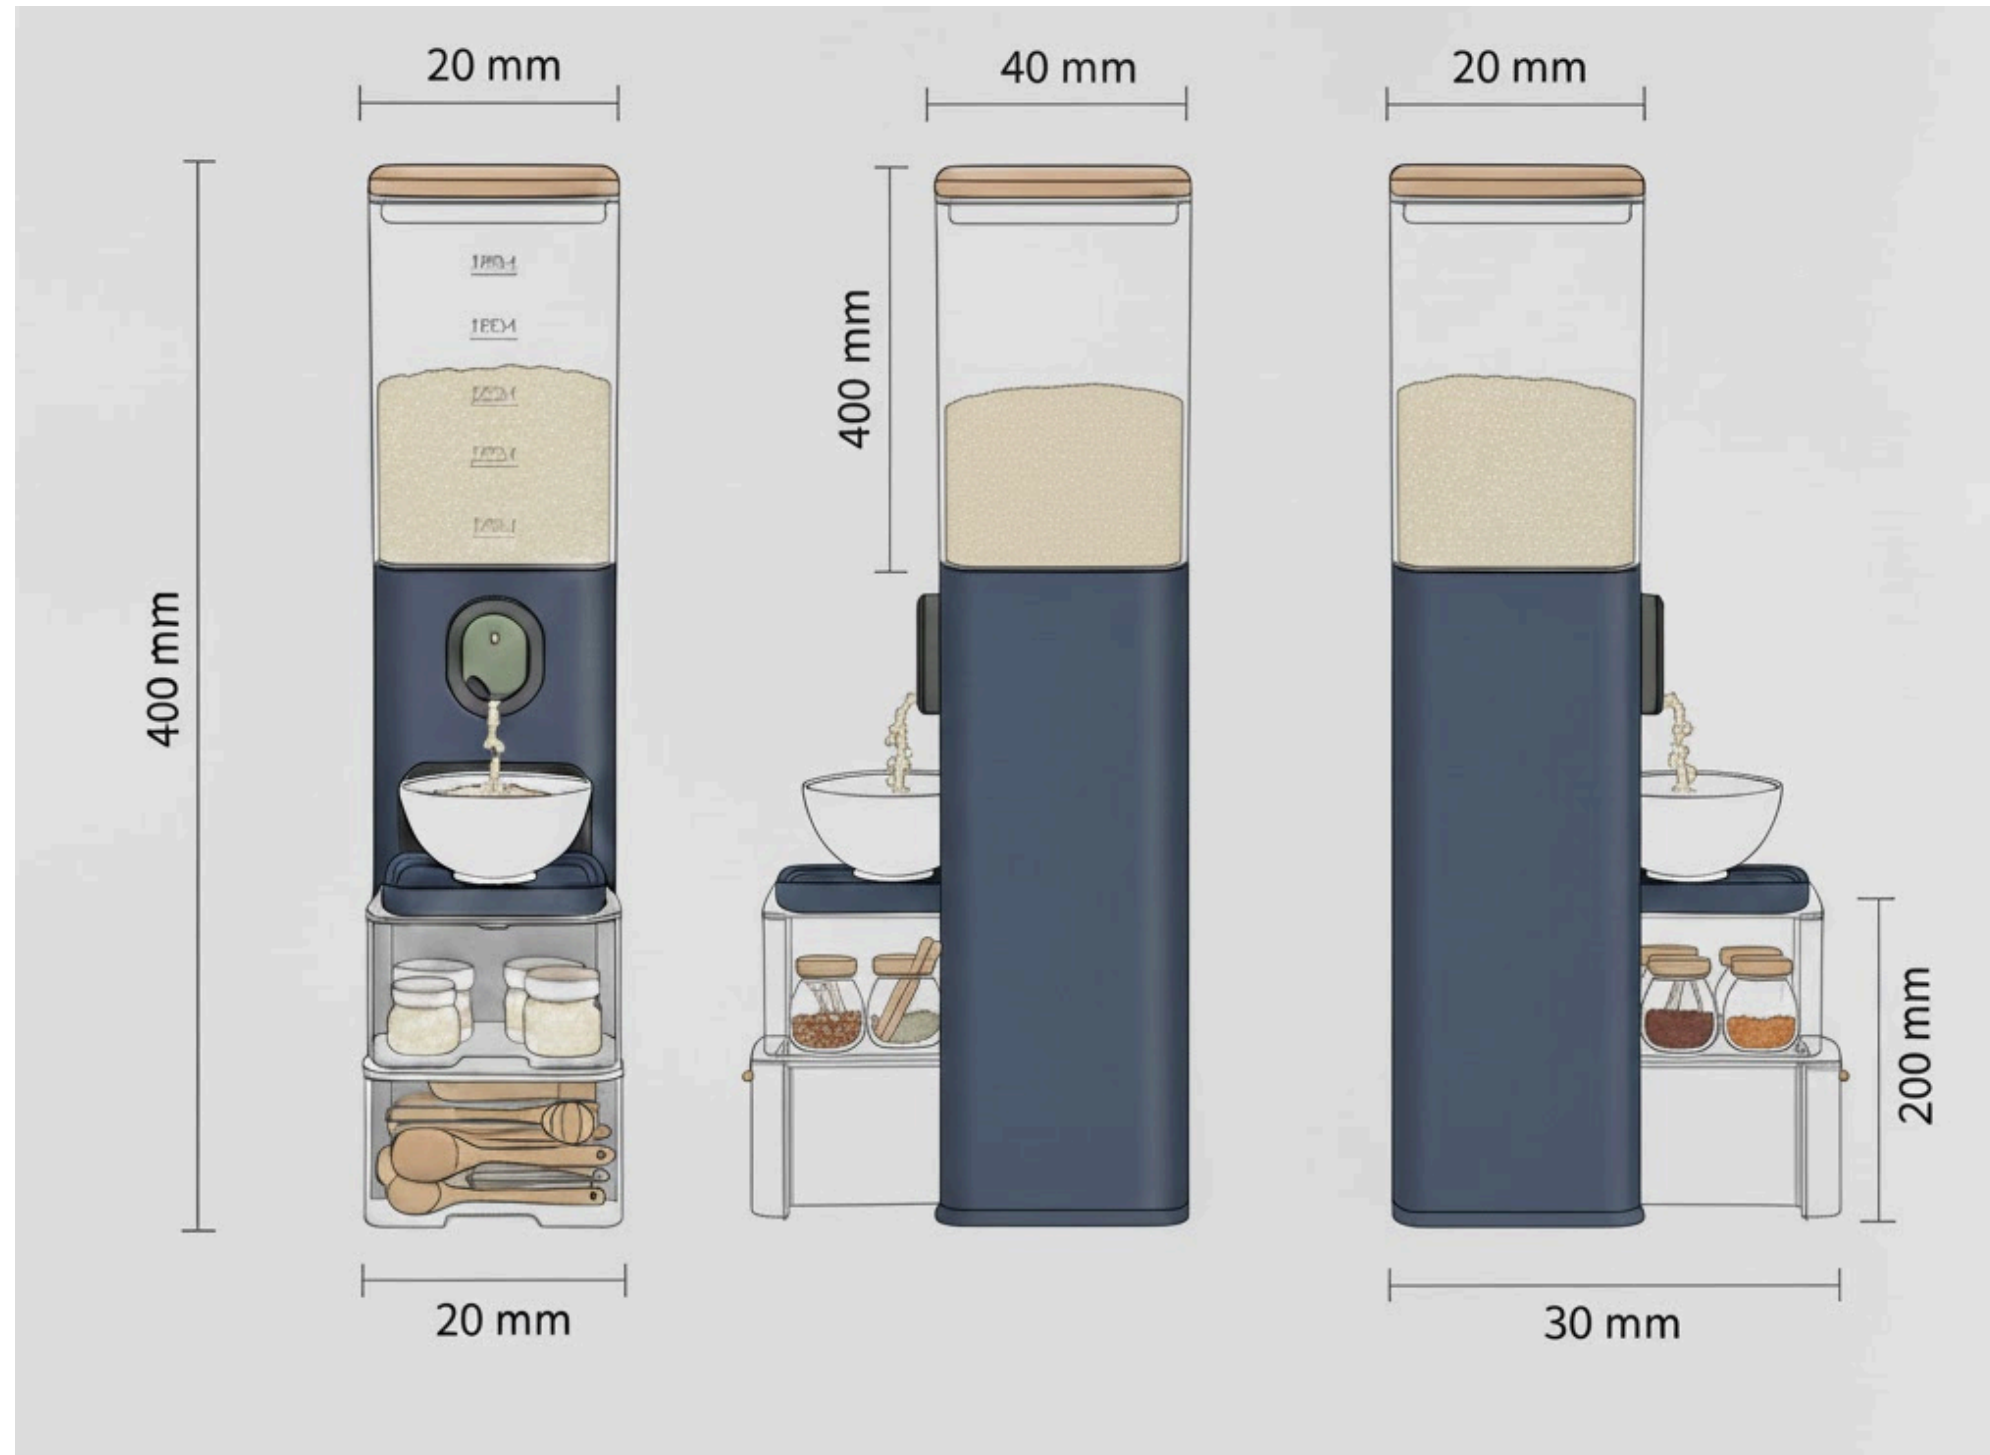

- A button: The main element for dispensing. By pressing the button, a portion of rice is released directly into the bowl underneath.
- The collection bowl rests on a removable tray or a section of the base, making the measuring process easier.

Lower compartments:

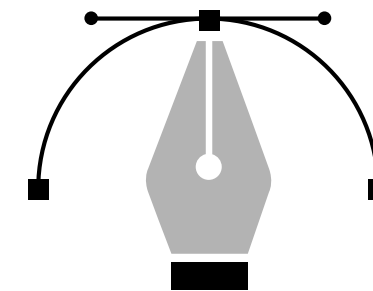

The lower part of the dispenser is equipped with two transparent drawers (*potentially PET or acrylic*) intended for storing kitchen accessories such as measuring cups, whisks, or small condiments.

DIMENSIONS

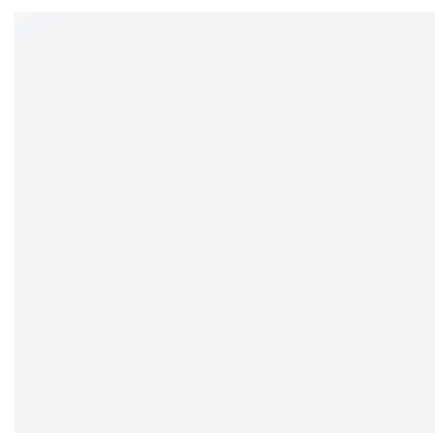

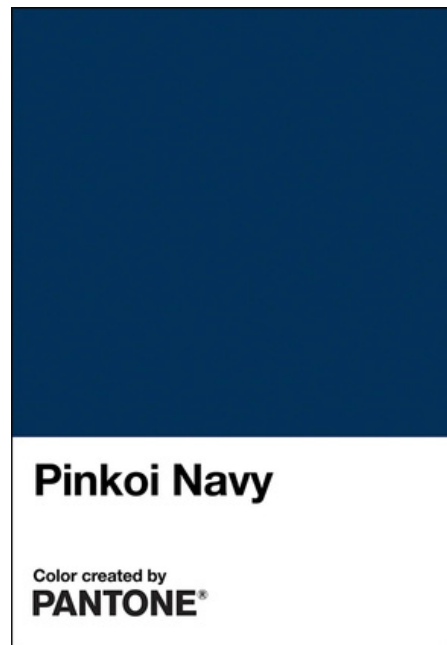

- **Height:** Approximately 35-45 cm.
- **Width:** Approximately 15-20 cm.
- **Depth:** Approximately 25-30 cm.

THREE COLOR OPTIONS

***Lucent
White***

***Sage
Green***

***Pinkoi
Navy***

MATERIALS

- **Base:** Likely made of durable plastic, such as ABS or polypropylene, providing a solid structure.
- **Upper container:** It is transparent and cylindrical, ideal for viewing the rice level and markings. The suggested material is PET or Acrylic (PMMA), which is durable and clear.
- **Capacity:** The upper container features a clear graduated scale (2.5kg, 5.0kg, 7.5kg, 10kg) that indicates the amount of rice remaining.
