# BLESSING BARRELL

Modular, lightweight and safe barrel, designed to burn gold and silver ingots. It respects the traditional form and ritual gesture, but without open flames or the risk of burns, thanks to its electric button ignition.

## Materials

- **Outer shell:** lightweight anodised aluminium or thin, durable, rust-proof stainless steel.
- **Upper chamber:** stainless steel walls with ceramic plate base.
- **Combustion system:** ceramic plate heated by nickel-chromium resistance.
- **Lid:** perforated stainless steel grill with silicone frame.
- **Ash plate:** ceramic or stainless steel, easy to clean.
- **Handles and feet:** insulating, non-slip silicone.
- **Filters and fan:** activated carbon filter and anti-odour PC fan.

# BLESSING BARRELL

## Safe combustion:

Heat-controlled system, burns paper slowly without an open flame.  
Can be switched on using a button, which activates the heating element that heats up when electricity passes through it, in turn heating the upper ceramic plate and allowing the paper to burn.

## Advantages

- Lightweight and durable materials, which facilitate transport and ensure good durability
- Modular and user-centred design (designed to be easy to use and clean)

# ALTAR OF MEMORIES

A small table with folding legs that can be easily closed and stored against a wall. It has a rectangular compartment with holes on the sides where you can insert the paper you want to burn. Underneath, there is a drawer where the ashes are collected, and finally, it has a transparent lid so you can watch the combustion.

## Materials

- **Combustion chamber:** stainless steel with refractory enamel (lightweight, heat-resistant and easy to clean)
- **Folding legs:** painted sheet metal, the two left legs are equipped with hinges
- **Lid:** ceramic glass (resistant)

# ALTAR OF MEMORIES

## Ergonomic design

The table is high enough to be used while standing or sitting comfortably. All its components are designed to facilitate every step: the side holes are multifunctional as they act as an opening to start combustion (by inserting the tip of a gas lighter) and allow air to flow the lower drawer allows ash to be collected quickly and easily, facilitating cleaning

- The upper glass allows you to admire the combustion without the risk of burning yourself, but giving you the possibility to add more paper through the side cover

# THE ETERNAL DIFFUSOR KIT

Innovative ritual diffuser. It combines traditional symbolism and modern technology, inspired by the ritual of honouring ancestors. It transforms fire and smoke into light and scented mist, offering a safe, elegant and multi-sensory experience. The mist, illuminated by LEDs (red and yellow), resembles a flame; when the sheets are inserted into the drawer, a sensor intensifies the light, simulating their combustion.

## Components

- **Removable drawer:** contains water and essence; can be opened to insert sheets of paper during use.
- **Functional Gold Sheets:** water-soluble gold films that dissolve to release essential oils, symbolising the transformation of burnt paper money.
- **Heating element:** nickel-chromium heating element that heats the water using electricity.
- **Ritual essence:** blend of natural essential oils for a sacred and meditative olfactory experience.
- **Accessories:** water measuring cup, tweezers for the sheets and illustrated manual with a guide to the ritual and symbolic meanings.

# THE ETERNAL DIFFUSOR KIT

## Materials

- Diffuser body: Anodised aluminium and natural bamboo
- Gold foil: Biodegradable water-soluble gold film
- Packaging: Eco-friendly cardboard and natural fibre inserts
- Removable drawer: Transparent plastic
- Drawer sensor: Magnetic sensor.

## Advantages

- Symbolic: preserves the ritual gesture of offering, transforming it into an act of modern spiritual connection.
- Multisensory: engages sight, smell and touch in a complete meditative experience.
- Aesthetic: elegant and natural design, also suitable as a decorative object, while respecting tradition.
- Renewable: gold leaf and essences can be purchased separately to continue the ritual over time.

# PRODUCT BUDGET

1. Blessing barrell	580,01 - 994,30 yuan
2. Altar of memories	2071,47 yuan
3. The eternal diffusor kit	290,01 yuan
